## Your Future is a Big Adventure

**“The big challenge is to become all that you have the possibility of becoming. You cannot believe what it does to the human spirit to maximize your human potential and stretch yourself to the limit.”**

**Jim Rohn**

Prepare for your future, don't live in the past. Savor your good memories, and use any bad ones as lessons in life. You need to focus on your future not on your past.

Carve out a niche for yourself and your imagined future. Think, feel and see yourself as successful. To achieve any goal in life, you need to project your end result.

Think of the elation, the satisfaction, the joy you'll feel when you reach your goal. Carry these estactic feelings with you every day and they'll bring your desired goals into view.

Sooner or later, you can win, if you think you can. The cards you are dealt in life are less important than the way you play them. Every day you're offered a new deal and new cards.

Success is out there for you. Don't wait for it to come to you, go out and find it.
